First printing, September 2011 Printed in Canada

In the spring of 2010 a friend gave me an old novelty doodle pad that he had found in the depths of his parents' attic. It appeared to be a visual *Mad Libs* of sorts; printed on each page was the same unfinished outline of a nude woman, under the dictum "do it yourself Doodler." The following 39 drawings are my response, presented in the order in which they were doodled.
